Thanks Marcy.

I will touch base with Orlando in the morning. I have reached out to Winter Park and will let you know when they respond.

Thanks,
Tina

Tina,
One more item for Orlando, project ORL-35 Federal Street CDS Unit, we're having a hard time figuring out the area treated from the CAD file they provided so we need some clarification there.
Thanks!
-Marcy

Tina,
I'm working on the Lake Jesup projects you asked me to verify and there is some additional information I need from the stakeholders for the calculations:

- ORL-34 Lake Druid Emergent Vegetation Harvesting – They provided the types of vegetation and total weight but I need to know how much of the weight is each type of plant and the TN and TP content in each type of plant from lab testing. I'm not sure they have this information but we can ask.
- WP-52 Winter Park 9th Grade Center Pond – They say this is an upgrade to the existing pond

but I need permit and design information to see what changes they are making above any permit requirements.

- WP-54 Alum Station Upgrades – They do not specify which alum stations are being upgraded so I don't know what basins to use from the shapefile they sent.

Could you please follow up with Orlando and Winter Park or would you prefer that I reach out?
Thanks!
-Marcy

Tina,
Thanks! I downloaded the file and will send you updates next week.

Marcy,
The files I have for Jesup verification are posted here. In the spreadsheet you will notice that there are comments on the project numbers with notes for you. Many of the projects are have reductions based on the MS4 toolkit. Materials collected amounts and reductions have been confirmed for those that say "Needs Attenuation" in the comment. The WS-09 project has a note on the reduction amounts showing the updated reduction that was submitted by the stakeholder. Winter Park said they were sending me GIS files, but I have yet to see them. I added a tab labeled "Waiting on GIS" to the workbook with these projects so that if we get them soon you will already have the project information.

Let me know if you have questions.

Thanks,
Tina
