Hi Carina,
I apologize for the confusion. The collection time for the overflow chain of custody represents our first meter reading time. The time of 12:04 would be accurate for when the water samples were collected.

I'm sorry about that. Thank you for catching it. Please let me know if there are any more issues.

Take care!

Best regards,
Leif

Good Morning,

I wanted to confirm with you the time of collection for the overflow sample # G1CE002. I have two collection times: 11:55 am, as it's shown in the overflow chain of custody, and 12:04 in DEP's coc. Is this correct?

Thank You!
Carina
