Yes, please upload micro overflow results to the RQ on submittal forms. There would not be an RQ-2018-04-19-17 since the numbers correspond to year, month, then first day of the week for the sampling week and the 19 did not fall on a Monday. These samples were submitted by Volusia County samplers who are sampling on our behalf, and I'm thinking they accidentally wrote down the wrong number. It should all be under RQ-2018-04-23-17.

Hello Central District;

There are conflicting RQ's on the lab submittal form (RQ-2018-04-23-17) and Flowers chain of custody(RQ-2018-04-19-17); I will upload micro overflow results to the RQ listed on submittal forms

unless you inform me otherwise.

Thank you!
