Kara,

Excellent catch!

That is correct, sample submission to the laboratory was at 1455.

Thanks,

Hello,

It looks like on this chain of custody, the receive time for the relinquished was crossed out and rewritten by the person accepting the samples at Flowers. It's only a 20 minute difference but if a correction needs to be made like this, the person dropping off samples should really be the one doing it and it also needs to be initialed.

Drew, can you confirm that the 1455 receive time is correct? Just need it for the record.

Thanks,

Kara

Kara Sprague
