Good morning,

Both RQs are from the same site visit. I was in the field and wasn't able to create a new RQ for the contract lab's sample, so I used the existing one on the bottle. When I returned to the office I created a new RQ for the remainder of the sample kit.

We can just leave it with 2 separate RQs, if that is easiest for you.

I'm sorry if this is confusing.

Good Morning!

Can you please confirm correct RQ for this sample?

The custody sheet that went to the overflow lab shows the RQ as: 2017-04-03-65 but DEP's has it as 05-08-74.

Let me know whenever you get a chance.

Thank You,
Carina
