Oh, alright. I see now. I'm glad I asked. I will go ahead and log the sample in under that event.

Thanks!

Hi Kara,

Yeah this was my mistake. During the first run for site G4NW0211 I had the UWF lab run an E. Coli. instead of Entero. We sampled again within the same week hoping to tie the correct sample with the same event (Lab event# NW-DIST-2019-01-29-01). Sorry for creating a few headaches! Let me know if I can provide anything else to clarify.

Thank you!

Jimmy

Hello,

I think this is your name on the UWF submittal. Was this sampling event only for entero? I don't see where any other samples with this event were sent to Tallahassee for log-in.

Thanks!

Kara
