Hello Matthew

I apologize these were left in the incubator to long. We had a backup analyst that did not realize they were in there and left over the weekend. We have put new steps in process of our lab to prevent this reoccurrence…

The samples that were affected are below
RQ-2019-02-04-68

3	T1902291003	G1SW0087
4	T1902291004	G1SW0051
5	T1902291005	G1SW0095
6	T1902291006	G1SW0095_Dup

WoodsCreek @ Slow Speed Sign
Moccasin Creek Tidal
Mullet creek Tidal at Park
Mullet creek Tidal @ Park

There were E-coli done on that same COC however those were fine- only the Enteros were affected
