Cindy,

Thanks.

In describing your contract work for the SFER chapter, I'll use an edited version of your text from your Scope as in italics below.

Anything you think I should add to this; e.g. a list of parms to be compiled in the ACME database?

Don

The data set for core ACME sites includes information on Hg and MeHg concentrations in surface water, soil interstitial waters (pore waters), soils, and the food web. Food web components include invertebrates and small fish. Detailed biogeochemical data for the sites was also measured, including microbial activity and soils and water chemistry, with a focus on sulfur cycling and organic matter characterization.

The second component of the study is a series of field mesocosm experiments designed to test cause and effect hypotheses. Additions to mesocosms have included mercury, sulfate, DOC, and phosphate. Mesocosm experiments have been run at LOX, F1, U3, 2BS and 3A15. The most detailed sulfate and DOC addition studies were carried out at site 3A15.

However, the full data set from the study has not been compiled in one location nor undergone final QA.

Yup, use the Arlington address for FEDEX.

The main address for SI is downtown, so I guess that's what Ruth uses in her signature line.
Anything sent downtown would be routed out to Arlington thru internal SI mail eventually.
But its faster to send stuff straight to the Arlington address.

Yup, that's more complicated than it needs to be.

FYI, the contract is all set up on our end, so I can finally start work. Yay!

Isn't Ruth in Arlington VA?

The Department of Environmental Protection values your feedback as a customer. DEP Secretary Michael W. Sole is committed to continuously assessing and improving the level and quality of services provided to you. Please take a few minutes to comment on the quality of service you received. Simply click on this link to the DEP Customer Survey. Thank you in advance for completing the survey.

Subject: SP676 draft contract 2008-07-10

Hi Debbie,

I was copied on the e-mail Katherine Tkac sent to you with the Smithsonian insurance certificate. The only other issue we had with the draft contract was that the Contract Manager should be someone from the Office of Sponsored Projects. You may include me or our Director, J. Scott Robinson, at the same address as mine. Mr. Robinson's phone number is 202-633-7110.

Could you give me an update on when you think we will receive the final contract for signature?

Your response will be greatly appreciated.

Ruth
