Hi Anthony:

I think that I must have made the mistake when recording in military time – I believe that it should have been 14:40 (2:40 pm) and then the time received by the staff at ALS should have been 14:41. I fear that he just added 1 minute to my mistaken time of 15:41. I hope that helps, it's the only way that I can think to explain it.

Good Morning Amy,

I was wondering if you would be able to confirm the receiving time for RQ-2020-02-03-22 as 15:41 like the chain of custody shows. I am asking because in the report by ALS they have sample start time before the receiving time and they spoke with the analyst who confirm their start times are correct. I have attached the report from ALS which also contains the chain of custody. Let me know if you have any questions.

Thanks,
Anthony
