Good morning Anthony,

G3SW0063 was sampled for entro only, no e.coli. DEP Lab Submittal Form was miss marked. My apologies for the confusion.

Have a great day,
Sarah Meyer

Subject: Sampling Confirmation

Hello Sarah,

Would you be able to confirm which tests Field ID G3SW0063 for RQ-2020-02-24-08 were dropped off at Benchmark for? On the chain of custody it looks like G3SW0063 was only sampled for entero but on the report to DEP Receiving is has two bottle groups associated with that sample and looks like it is for both entero and e.coli. Can you confirm which one is correct? I have attached a copy of the report sent to Receiving which also contains the chain of custody. Let me know if you have any questions. Have a great weekend!

Thanks,
Anthony
