Definitely an NCR and No Result with an "O" qualifier. The customer will need to be notified by email, as well. One of the Bench analysts can walk you through the process if you need help.

Way over an hour. The analyst forgot to take them out over the weekend

Hey long were they left in? If it's under an hour then the data can be qualified. Over an hour, then an NCR and No Result and an "O" qualifier.

Hey Diane,

AEL left some enteros in the incubator too long on this one. Should I report as a No Result with an O-qualifier and do an NCR? They didn't report a result.

Thanks!

Kara
