This EDD Should have 10. I'm not sure why it's not exporting with 10 because I change it each time but I'm going to start checking when I export to Excel when I make corrections in our Lims system.
I didn't realize that it doesn't save changes that I make before we export it.

Hi Kara,

On this report, should the dilution factor be 10? The EDD says 1.

Thanks!

Kara
