---

Shannon,

Can you give me a call to discuss what you are waiting on from your consultant? Our timeline allows for some additional time to gather supplemental information, however I would still need your project table before the deadline so that we can look it over and confirm what you would need to provide for credit verification. At that point there would be additional time for you to provide the supplemental information related to supporting credit changes.

Thanks,

Tina Gordon

Tina,

We are waiting on some project data from our consultant and won't have our tables finalized by the end of today. We should have our updates to you by the end of next week if that is ok?

Good afternoon,

This is a reminder to submit information for the next Statewide Annual Report (STAR) by **Wednesday, January 15th, 2020**. You may include projects from January 1, 2018 through December 31, 2019 for Gemini Springs since project collection was not done last year for that BMAP.

Please see the email below and attached tables for information, and feel free to contact us with questions or concerns.

Sincerely,

Tina Gordon

Subject: Project Collection for BMAPs for the Statewide Annual Report

Kim and Shannon,

It is time to begin preparation for the next Statewide Annual Report (STAR) to be submitted July 1,

2020 to the Governor and Legislature. This annual report of progress towards implementing water quality and quantity projects will greatly assist policymakers and local stakeholders in keeping track of the myriad of restoration strategies, fulfilling the requirements of Section 403.0675, Florida Statutes (F.S.). As part of the STAR, we will include updates on the status of all basin management action plan (BMAP) projects through December 31, 2019.

As an entity with projects in three or more BMAPs, you have a special, consolidated package of materials that includes the following:

1. Excel file with your entity name included and "BMAP Names and Contacts" as Sheet 1. This lists all the BMAP project lists that are included and the DEP contact for each BMAP.
2. Additional sheets, by BMAP, with your entity's project information:
    a. This is your project table, by BMAP.
        i. **All organizations should review their ongoing projects** (e.g., street sweeping, BMP clean out, public education/ordinances) to ensure that they are continuing at the previously reported levels.
        ii. Ongoing projects can be identified by filtering your worksheet for a completion date of "N/A."
3. There is also a sheet in each workbook called "Project Types and Menus." Please do *not* edit this sheet; this information populates the drop-down menus in the "Projects 2019" sheet.
4. Additional supporting documents are attached to assist you with completing your project submissions:
    a. Project Types and Definitions
    b. Annual Project Update Instructions

Please reply all to this email ***no later than close of business <u>Wednesday, January 15th</u>*** with the following applicable information:

No updates needed:

- Reply all to this email to inform us that you do not wish to make any changes or additions this year.

Updates needed or new projects added:

- Please update the information for projects currently in your project table and <u>include any new or changed projects</u>.
- If you change text in any cell on the project tabs, please color/fill that cell red so the change is noticeable. Changes not marked in red may not be integrated into the final report.
- If a field contains a drop-down menu, your selection is limited to the approved terms in the menu. Please select the term that is most applicable.

Updates to credits or new projects with credits:

- You will be contacted to provide supplemental information for the verification of credits.
- The information needed will depend on the project type but may include geographic information system (GIS) information on the treated area, monitoring data, engineering specifications, or weights of material collected.
- Supporting documents (attached) have been provided to assist with completing the project tables and verifying new/updated project credits. Adherence to these guidelines is important

for consistency in this statewide report, and for meeting the statutory submission deadline.

If you have any questions, please feel free to contact me at Moira.Homann@FloridaDEP.gov or (850) 245-8460.

Sincerely,

Tina Gordon
