Don:

The Contract has been drafted and is being reviewed here. I should have a draft for you later this week. One thing you can work on is the scope in revising the dates in the scope.

I have attached the draft contract thought it is not ready for your review to make necessary changes to the dates in the scope. Please email me the changes and I will update the draft.

Sorry this has taken so long but we were researching the fact this was a single source but half the money was subcontracted.

Debbie

Subject: SP676 (Smithsonian) no cost ext CIF; Pending contract on "Screening Model of Mercury Cycling in the Gulf of Mexico"

Debbie,

1. I've placed this signed CIF (PDF copy attached) - a no-cost extension for contract SP676 - in the mail for you.

2. Where are you re the contract; *Screening Model of Mercury Cycling in the Gulf of Mexico*; single source, fixed price, $122,877, with *Aqua* Lux Lucis, Inc.?
We have a meeting re this Gulf of Mexico research on Friday with Drew Bartlett, Daryll Joyner etc., and the proposed contractor, and I need to be able to say something re the estimated start date.

Thanks for your help,

Don Axelrad
