Actually it is but I will take care of it. I have to do it for many of our other contracts as well.

Heather/Devan,

I don't think the Stressor ID is subject to certified forward because it's tied to a federal grant, but can you confirm?

Thanks,
Joy

I don't.

Don – I don't believe the Smithsonian contract (SP676) is subject to certified forward, but can you confirm?

Joy – same thing for the Stressor ID contract, can you confirm?

Thanks,
Denise

We did not have any certified forward, correct?

Russ

See attached. I recall that Dana/Gail are planning to certify forward encumbrances related to the Alachua County, NWFWMD, and SJRWMD monitoring contracts. Hope this doesn't impact those plans, or anyone else's. Please let me know if it does.

At yesterday's FY 08/09 Certified Forward meeting program areas were requested to notify F&A of any anticipated Type B Certified Forward items. Type B encumbrances are goods or services that have been obligated, usually through a purchase order or contract, as of June 30, but the goods or services will not be received on or before June 30. These type of encumbrances are not typically requested for certified forward and therefore carry forward as encumbrances against next FY appropriations. Exceptions for special circumstances will be reviewed/considered.

Please provide to me no later than COB Wednesday, June 17 a list of any Type B items for your program area. See instructions (Exhibit II) at the link below for instructions and the Type B CF forms.

Thanks.
