Looks like I entered the "1419" from the project number, J2101419. Actual incubation end time is 1811.

J2101419-001	7/6/21	16:26	16:53	-	100	7/7/21	18:11	18:11
J2101419-002	7/6/21	16:26	16:53	-	100	7/7/21	18:11	18:11

I have attached a revised report.

Hi Valerie! I noticed that the incubation time for the attached report shows sample J2101419-001 and J2101419-002 were incubate for less than 24 hours. Is this a typo or does there need to be a qualifier?

Thank you,
