Hi Abigail,
1220 is the correct collection time.

Good morning,

I have a quick question about a discrepancy between the contract lab COC and the DEP COC for the bacteria overflow sample collected 4/8/21 as part of RQ-2021-04-05-62. Was G4SD0190 sampled at 12:20 or at 14:00?

Thank you!

Abigail
