Hi Kara!

Sorry for the confusion! The site was sampled at 12:20PM.

What happened was that day we visited several other sites that did not need to have a UWF sample. I confused the line above with the sample I collected for UWF and put down the time associated with G4NW052. In noticing my mistake, I did not change the time to match the corrected sample location with it's corrected time.

Hope that makes sense! Thanks!

Hi Brook,

The UWF COC for this RQ shows field ID G4NW0435 being sampled at 09:35 but the DEP COC has that site being sampled at 12:20. There is a site that was sampled at 0935 for this RQ though…. Was the incorrect time written or the incorrect field ID?

Thank you!
Kara
