Hi has this been clarified with the lab for the lab report

Thanks
Jeremy

Kara,

I think maybe my last email went to your junk mail, you may want to double check. The FDEP chain is correct, the sample location is confirmed as HOG30US and the ID should be G1NE0901. Do you need me to request for AEL amend the report?

-Greg

Subject: FW: AEL samples 3/12

Hi Greg,

Can you please confirm that field ID G1NE0901 was the site sampled at 10:45 for this event? I need to upload these results so that we can certify the lab report and make the data available. I am fairly certain that it was G1NE0901 that was sampled at 1045 since this was recorded by means of a printed label on the DEP COC but I still have to have some sort of confirmation from the sampler to explain why the report from AEL is different.

Thanks,

Kara

Subject: AEL samples 3/12

Hi Greg,

It looks like you and Efrain dropped off some samples to AEL Gainesville on 3/12. There is a discrepancy between the chain of custody dropped off to AEL and the COC sent to Tallahassee with the rest of the samples. The AEL chain of custody says field ID G1NE0001 was sampled at 1045 but the DEP chain of custody says G1NE0901. Can you clarify? The AEL COC is at the very end of the report that's attached.

Thanks!

Kara
