RE: OUC Curtis H. Stanton Energy Center (PA81-14)
Modification to Conditions of Certification
Incorporating PFAS Monitoring
OGC Case Number 26-1969

FINAL ORDER MODIFYING CONDITIONS OF CERTIFICATION

Mr. Gillingham:

The Florida Siting Board issued a Site Certification to the Orlando Utilities Commission (OUC) for the construction and operation of the Stanton Energy Center (SEC) in Orange County on December 15, 1982. The Department of Environmental Protection (Department) has modified the Conditions of Certification (Conditions) for SEC by Final Order on 13 other occasions. Pursuant to Section 403.516(1)(b), Florida Statutes (F.S.), the Department has initiated a modification to SEC's Conditions to incorporate new requirements for wastewater effluent and biosolids monitoring, that are effective July 1, 2026.

This revision was initiated by the Department to comply with new legislation (House Bill 1019, enacted as Chapter 2026-158, Laws of Florida), that amended Section 403.086, F.S., adding a new subsection (12) requiring that all public entities with facilities disposing of domestic wastewater biosolids and treated effluent with a designed average daily flow of 25,000 gpd or more must quarterly conduct at least one biosolids and at least one treated effluent sampling for perfluoroalkyl and polyfluoroalkyl substances (PFAS), including perfluorooctanoic acid (PFOA) and perfluorooctane sulfonate (PFOS), and submit the results to the Department. The sampling must be conducted in accordance with department rules and the Conditions of Certification.

Under Section 403.086, F.S., this new requirement applies to all public entities disposing of domestic wastewater biosolids and treated effluent, regardless of the beneficial use status of the treated effluent or biosolids, where the facility meets the average daily flow threshold of 25,000 or more gallons per day.

The final version of the modified Conditions can be viewed and downloaded from the following website:
https://publicfiles.dep.state.fl.us/Siting/Outgoing/OUC_Stanton/Mod_N_PFAS_Monitoring/20260901_OUC_CurtisHStantonEC_ModN_FinalConditions.pdf

Copies of the Conditions and/or attachments may also be obtained by contacting the Department of Environmental Protection, Siting Coordination Office, 2600 Blair Stone Road, M.S. 3500, Tallahassee, Florida 32399-2400, (850) 717-9000.

Any party to this Order has a right to seek judicial review of it pursuant to Section 120.68, F.S. by filing a Notice of Appeal, pursuant to Rule 9.110, Florida Rules of Appellate Procedure, with the Clerk of the Department of Environmental Protection in the Office of General Counsel, 3900 Commonwealth Boulevard, M.S. 35, Tallahassee, Florida 32399-3000, and by filing a copy of the Notice of Appeal, accompanied by the applicable filing fees, with the appropriate District Court of Appeal. The Notice of Appeal must be filed within 30 days from the date this Order is filed with the Clerk of the Department of Environmental Protection.

Sincerely,

Robert Robertson
