Denise,

I'll find answers.

Yes 8/18/09 is the contract end date because that is 1 year from date of execution.

Don - the justification looks appropriate to me. I indicated one suggested word change in the attached.

As to 1) and 2) below, I can't answer. On 1) the funds are from John Outland's/Greg Knechts's shop, so they may need to be consulted to answer that question. Or maybe Renee can discern that from the funding org code information? On 2), the contract document or the Contract Initiation Form may shed light on this. I don't know what was set up.

By the way, I noted from the summary form your indication that 8/18/09 is the contract end date. I assume, then, that is 1 year from date of execution? That being the case, it gives us contractually the ability to have the final deliverable after 6/1/09, such that the sulfur workshop can inform the final report, if necessary.

Renee, Denise,

Please see and edit the attached as appropriate.

I still need info as to whether:

1. these are in part Federal funds;

2. Total Length of Time for Remaining Renewal Period(s).
