Cindy,

This (Email below) is just a reality; Bill, Mark and I discussed it today and all are OK re trying to reschedule the S workshop for June 11-12.

Great job yesterday; Denise is very happy with how our conference call went.

Don

Don/Bill

I just got word back from the Exec. office regarding the conference. Because of public perception reasons it doesn't look like they are not going along with District employees traveling to Ft. Lauderdale.

So, are you (1) OK with postponing and (2) holding the workshop at the District?

I have identified a room at District headquarters that has the space (30+ people) and tech capacity (video conferencing should we need it). We already have confirmation that June 4 and 5 are open. Another possible set of days is June 11 and 12.

Thanks
