Attached is the Munthe et al. Ambio paper from the last Hg conference. It has some Hg dose:response graphs from Diane Orihel's enclosures at ELA, and gambusia graph from Everglades Hg-addition mesos!

Cindy,

I recall you have a graphic showing linearity of MeHg production with inorganic Hg dose in mesos.

Can you resend; I cannot find it.

Curt (CCed) needs it for his seminar on Weds. re the FL Hg TMDL.

Thanks,

Don
