RE: GOMA WQ Team, SHORT TURNAROUND! but easy - team info bullets

Steve,
If I understand your request correctly here are my comments/suggestions for a display.

Under Mercury -
- Supporting Safe Seafood - The workgroup is compiling fish consumption advisories from each of the five states and will publish this information on the GOMA website. The information will be updated as states update advisories.

Under Monitoring -
- Coordinating Coastal Monitoring - The workgroup holds an annual Monitoring Forum to highlight water quality monitoring activities and to promote cooperation / coordination amoung those agencies and organizations conducting water quality monitoring around the gulf.

Under the Team -
- Improving Usability and Comparability of Coastal Water Quality Data - The team hosts the round robin sampling events to determine data comparability among the participants.
We should probably also mention the Water Quality Monitoring Metadata project.

Subject: GOMA WQ Team, SHORT TURNAROUND! but easy - team info bullets

Hello Water Quality Team,
We have a short task, but with a very-short turnaround. By the end of tomorrow (Wednesday) we need to turn in a list of five bullets for the AMT to use in creating a display. Each bullet is to be a short, pithy goal or achievement statement that tell others what our team "does or is doing". We've put together a strawman list for you all to comment on. Four are intended to represent the workgroups (one each) and one the whole team.
Please send in your comments/suggestions ASAP on the workgroup(s) in which you are involved and for the team-wide one. Need your input by noon Wednesday, 6/24.
Sorry for the rush, I meant to send this out earlier and made the mistake of setting is aside 'temporarily'.
Thanks , Steve
Pathogens
1a) Protecting healthy swimming and fishing. –or-
1b) Protecting beach goers and seafood consumers from microbes and viruses.
(HABs)
2) Reducing harmful algal blooms.
(Mercury)
3a) Supporting safe seafood. –or-
3b) Understanding mechanisms of mercury entry into seafood and who is most at risk.
(Monitoring)
4) Coordinating coastal monitoring.
(Team)
5a) Improving management of coastal water quality. –or-
5b) Increasing usability and comparability of coastal water quality data.

The Department of Environmental Protection values your feedback as a customer. DEP Secretary Michael W. Sole is committed to continuously assessing and improving the level and quality of services provided to you. Please take a few minutes to comment on the quality of service you received. Simply click on this link to the DEP Customer Survey. Thank you in advance for completing the survey.
