Don:
I have not met Smolders, but I met Lamers in Annapolis a few years ago. Very nice guy, and speaks English well.

Cindy, Bill, Irv,

Who in the Lamers, Smolders group would you invite to our Sulfur Workshop to discuss internal eutrophication?
(Bill, note that Mark Gabriel calls it a "Sulfur Workshop")

Don,

Garth and I were talking about the Sulfur Workshop.

How do you feel about inviting one of the researchers from the Netherlands that investigates internal U. to present some of their results and discuss ours?

My department already has the money already budgeted for this so we just need to figure out who to ask.
