Bill,

I have reworked the seminar announcement you wrote, as attached, to deal with the level of knowledge at FDEP re Everglades S and Hg, and to avoid political sensitivities.

In your seminar, say of course whatever the science supports.

Cindy and Dave, Bill asked me to ask you if you had any edits re the attached.

Also, the web link at the end of the attached page gets you to several publications re Everglades S and Hg; feel free to make suggestions.

Thanks,

Don
