Don,

So far it looks like 30 people plan to attend the workshop. Unless you invite any one else this is probably the final list.

See the attached.

Mark,

I was just talking to Bill and Cindy re getting a scientist to the Workshop who could critique S effects on Hg methylation science.

The question came up in the context of asking someone to attend, “how many do we expect to attend this year’s workshop?”

Any indication/estimate?

Don
