Subject:	Re: REMINDER: Second Annual Workshop on Mercury and Sulfur in South Florida Wetlands
Date:	Thursday, May 14, 2009 3:09:35 PM
Attachments:	Liu EST 2009 Hg .pdf

Colleagues-

Attached is a paper just accepted in ES&T "Spatial variability in mercury cycling and relevant biogeochemical controls in the Florida Everglades". Senior author is Guangliang Liu of FIU. Data are from our REMAP 2005 sampling. Note the role of DOC and H2S.

(See attached file: Liu EST 2009 Hg .pdf)
