Don and Cindy:

Just got this email from Samira Daroub. I was pretty much expecting this from her, but I thought I'd try at least to get someone from IFAS on board. So I am taking her off the authorship. Any thoughts?

Bill

Hi Bill,

Thanks for sending the chapter. I am sure it will be interesting to read. Having said that, I do not have the time now to really give the chapter the attention it needs for a review. And since the chapter has a lot of sections that I have not seen before, I do not feel comfortable being a co-author. I hope it is not too much trouble to take my name from the authorship of that chapter. I will be happy to give you comments on parts of the chapter regarding sources.

Regards,
Samira

All:

Attached is the draft manuscript. I welcome all comments on content, Figures/tables, and especially areas to shorten the paper. Sorry it has taken so long, but the multiauthor papers always take longer. Thanks for everyone's efforts. As always, getting me your cooments asap is appreciated. I can also handle addressing your comments while the paper is in journal review.

Thanks,

Bill
