---

Tiffany/Tina,

Attached are:

- The map of the areas I've focused on for calculating load estimates
- A spreadsheet with the outputs of the PLSM tool I used to estimate the annual TN and TP loads in each of the WBIDs, as well as the output for the overall watershed boundaries (purple and green in the map)
- A spreadsheet with the assessment information and land use information for each of the WBIDs (thanks again for your help, Ben!)

We can talk more about this tomorrow, but I wanted you all to have all the information before our call.

Please let me know if you have any questions.

Thanks,
Moira
