Cattle Feeding	0.0						
Poultry Feeding	0.0						
Other Open Lands – Rural	0.0	N/A	No enrollment needed	N/A	N/A	N/A	N/A
Aquaculture	0.0	N/A	(FDACS Aquaculture Division)	N/A	N/A	0.0	N/A
Totals	97.8			37.3	2	53.9	55.5

[1] Enrollment numbers will depend on the ability of field staff to identify and locate producers, and whether producers choose to implement BMPs or monitor their water quality. Also, specific agricultural land uses and number of agricultural operations may change from year to year. Progress on enrollment, based on best available information, will be included in the annual BMAP report.

[2] Review of aerial imagery and property appraiser data shows that approximately 30 acres recorded in this land use type are actually a nursery operation. The containerized portion is enrolled, and the producer will be contacted to enroll the remaining in-ground nursery acreage once the updated nursery manual is adopted.

Everglades West Coast Imperial River BMAP Area: Agricultural Land Use and BMP Enrollment
