

BMAPs Monitoring Plans

- Stakeholders conducting the monitoring in the IRL BMAPs:
 - St. Johns River Water Management District (SJRWMD).
 - Fort Pierce Farms Water Control District (FPFWCD).
 - Indian River Farms Water Control District (IRFWCD).
 - North St. Lucie River Water Control District (NSLRWCD).
 - Sebastian River Improvement District (SRID).
 - South Florida Water Management District (SFWMD)
 - Volusia County.

Updates on Monitoring

- IRFWCD and SRID have continued the monitoring as shown in the Central IRL BMAP monitoring plan.
- FPFWCD and NSLRWCD have continued the monitoring as shown in the southern IRL monitoring plan.
- Volusia County has sampled their two sites from the North IRL BMAP monitoring plan quarterly instead of monthly.
 - The conditions at these sites have made it difficult to collect and process samples.

Monitoring Updates, continued

- SFWMD's monitoring in the southern IRL BMAP monitoring plan has been slightly modified:
 - The station upstream of Weir S50 on C-25 is now sampled for certain parameters on a weekly, instead of biweekly basis.
 - The station at the Taylor Creek Basin 1 Outfall in Fort Pierce Farms was dropped.
 - The station west of Channel Marker #169 in the Intracoastal Waterway was moved about 1,500 meters south.

Monitoring Updates, continued

- SJRWMD has made some slight modifications in their monitoring in all three BMAPs.
- Banana River Lagoon BMAP:
 - New station IRLB05 was added in August 2013.

Monitoring Updates, continued

- North IRL BMAP:
 - Station 27010875 in North A is now sampled bi-monthly instead of monthly.
 - Station IRL109E was added in August 2013 in North A.
 - The following stations were reinstated in August 2013 in North B:
 - IRLUPEGWR – Eau Gallie River upstream at weir.
 - IRUPHC – Horse Creek upstream at Croton Road.
 - IRLI16.
 - IRLGUSHIPPN – Gus Hipp north.
 - IRLGUSHIPPS – Gus Hipp south.
 - IRLBRACCO – Bracco Pond outfall.

Monitoring Updates, continued

- Central IRL BMAP:
 - Station IRLUPGC (Goat Creek Upstream at Gradick Road) in Central A was reinstated in August 2013.
 - Station IRLSIROO3 in Central SEB was reinstated in August 2013.
 - Station IRLVNC (Vero North Canal at US 1) in Central B was removed.
 - New stations were added:
 - IRUPCC – Crane Creek at Babcock Street in Central A, proposed for September 2013.
 - IRLVNCODH – Vero North Canal at Old Dixie Highway in Central B, added in February 2012.
 - IRLSI – 0.5 mile west of A1A Bridge over Sebastian Inlet in Central A, reinstated August 2013.
