EXTERNAL SENDER: Use caution with links and attachments.

Steven/Robert,
This is a reminder to please send information on planned and future projects in the Lake Okeechobee BMAP watershed to Sara Davis at Sara.C.Davis@dep.state.fl.us and myself at marcy.frick@tetrattech.com by July 31, 2019.

Please let us know if you have any questions.

Thank you!
Marcy

Subject: FDOT D1 project collection for the Lake Okeechobee BMAP

Steven/Robert,
Please ignore my previous email – the correct attachments are included in this email.

The Florida Department of Environmental Protection has been working with the stakeholders in the Lake Okeechobee Watershed to prepare the 5-Year Review and update of the adopted Lake Okeechobee Basin Management Action Plan (BMAP). The 5-Year Review is being prepared to meet legislative requirements in Chapter 373.4595 (4), Florida Statutes, which require that a review of the adopted BMAP be completed five years after adoption, which is the end of December 2019. In addition, the BMAP is being updated to meet the requirement of Executive Order 19-12 that the restoration plans impacting South Florida communities are updated by January 2020.

As part of the 5-Year Review and BMAP Update, we are gathering information about planned and future projects in the Lake Okeechobee BMAP watershed. The BMAP watershed now includes all nine sub-watersheds, north and south of the lake. Attached is your current project list. Please provide any edits or updates to the project status through June 30, 2019. In addition, attached is a project collection sheet for information on future projects. These projects are not commitments, but instead meant to help us determine future BMAP milestones and what projects may occur further out in the BMAP timeline. You do not need to complete all the columns for the project information – at a minimum, please provide a name and description, as well as funding needs in the "Funding Status" column. For any estimated nutrient reduction benefits, please provide supporting details.

Please send your project information to Sara Davis at Sara.C.Davis@dep.state.fl.us and myself at marcy.frick@tetrattech.com by July 31, 2019.

Please let us know if you have any questions.

Thank you!
Marcy
