In re:

ST. LUCIE RIVER AND ESTUARY
BASIN MANAGEMENT ACTION PLAN

OGC Case No. 20-0042

FINAL ORDER ESTABLISHING THE ST. LUCIE RIVER AND ESTUARY
BASIN MANAGEMENT ACTION PLAN

Pursuant to Sections 403.067(7) and 373.4595, Florida Statutes, this Final Order adopts the attached Basin Management Action Plan ("BMAP") for certain surface waterbodies within the St. Lucie River and Estuary basin. The adopted BMAP, entitled "St. Lucie River and Estuary Basin Management Action Plan" (hereafter referred to as the "St. Lucie River and Estuary BMAP") and dated January 2020, is attached hereto and incorporated herein as Exhibit 1.

The St. Lucie River and Estuary BMAP has been developed as part of the Florida Department of Environmental Protection's ("department") Total Maximum Daily Load ("TMDL") Program, as authorized under the Florida Watershed Restoration Act (Section 403.067, Florida Statutes) and the Northern Everglades and Estuaries Protection Program (Section 373.4595, Florida Statutes). The St. Lucie River and Estuary are both designated as a Class III water in accordance with Chapter 62-302, Florida Administrative Code ("F.A.C."). Water quality for Class

III waters is meant to be suitable for recreational use and for the propagation and maintenance of a healthy, well-balanced population of fish and wildlife.

The St. Lucie River and Estuary watershed is located in Martin, Okeechobee, and St. Lucie Counties. In 2009, the department adopted Rule 62-304.705 F.A.C., establishing nutrient TMDLs for the St. Lucie River and Estuary.

Excessive nutrients are the primary pollutants contributing to the impairment of St. Lucie River and Estuary. Table 2 in the attached Exhibit 1 identifies the applicable TMDLs.

In June 2013, the department first adopted a BMAP to address these TMDLs. This BMAP (Exhibit 1) supersedes and replaces in its entirety the BMAP previously adopted by the department to address these TMDLs.

The department worked closely with the affected stakeholders, including local and state agencies, in developing the St. Lucie River and Estuary BMAP to achieve the associated TMDLs. Beyond direct work with the affected stakeholders, the department encouraged public participation to the greatest practicable extent by providing routine updates in technical meetings and requests for comment at technical meetings on the St. Lucie River and Estuary BMAP. The department held a noticed

public meeting in the basin on January 23, 2020, to discuss the BMAP and receive comments.

The St. Lucie River and Estuary BMAP represents the collaborative effort of stakeholders to identify current and planned management actions to achieve pollutant load reductions required by the TMDL. The adopted BMAP documents the projects and management actions that have been, or will be, undertaken by stakeholders to reduce discharge of pollutants in the watershed. The projects and management actions (completed, ongoing, and planned) identified in the BMAP address known sources of pollutants, facilitate investigation of unknown sources, prevent new sources, and address future loads associated with growth and land use changes in the basin.

The specific pollutant reduction projects and management actions required of individual entities are set forth in Chapters 2 and 3 of the BMAP. Unless otherwise noted in the BMAP, all requirements of this BMAP are enforceable upon the effective date of this Order.

This Final Order and incorporated BMAP are enforceable pursuant to Sections 403.067, 403.121, 403.141, 403.161, 373.119 and 373.129, Florida Statutes.

THEREFORE, IT IS ORDERED that the attached Exhibit 1 is hereby adopted as the St. Lucie River and Estuary Basin Management Action Plan.

NOTICE OF RIGHTS

The St. Lucie River and Estuary Basin Management Action Plan shall become final unless a timely petition for an administrative proceeding is filed pursuant to the provisions of Sections 120.569 and 120.57 of the Florida Statutes, before the deadline for filing a petition. The procedures for petitioning for a hearing are set forth below.

A person whose substantial interests are affected by the department's proposed agency action may petition for an administrative proceeding (hearing) under Sections 120.569 and 120.57 of the Florida Statutes. The petition must contain the information set forth below and must be filed (received) in the department's Office of General Counsel, 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000.

Petitions must be filed within 21 days of publication of the public notice or within 21 days of receipt of this order, whichever occurs first. Under Section 120.60(3), Florida Statutes, however, any person who asked the

department for notice of agency action may file a petition within 21 days of receipt of such notice, regardless of the date of publication. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57 of the Florida Statutes, or to intervene in this proceeding and participate as a party to it. Any subsequent intervention (in a proceeding initiated by another party) will be only at the discretion of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, F.A.C.

A petition that disputes the material facts on which the department's action is based must contain the following information:

(a) The name and address of each agency affected and each agency's file or identification number, if known;

(b) The name, address, any e-mail address, any facsimile number, and telephone number of the petitioner, if the petitioner is not represented by an attorney or a qualified representative; the name, address, and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the

petitioner's substantial interests will be affected by the agency determination;

(c) A statement of when and how the petitioner received notice of the agency decision;

(d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate;

(e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action;

(f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action, including an explanation of how the alleged facts relate to the specific rules or statutes; and

(g) A statement of the relief sought by the petitioner, stating precisely the action petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts on which the department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition

means that the department's final action may be different from the position taken by it in this order. Persons whose substantial interests will be affected by any such final decision of the department on the petition have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

Mediation is not available for this proceeding.

A party who is adversely affected by this order has the right to seek judicial review under Section 120.68 of the Florida Statutes, by filing a notice of appeal under Rule 9.110 of the Florida Rules of Appellate Procedure with the clerk of the department in the Office of the General Counsel, Mail Station 35, 3900 Commonwealth Boulevard, Tallahassee, Florida, 32399-3000, and by filing a copy of the notice of appeal accompanied by the applicable filing fees with the appropriate district court of appeal. The notice of appeal must be filed within thirty days after this order is filed with the clerk of the department.

DONE AND ORDERED this 31ST day of January 2020, in
Tallahassee, Florida.
