Moira,

As I am not directly involved in the day-to-day of the Upper St. Johns River basin project, I don't want to mislead anyone with vague information. If you placing this on an agenda, could you just refer to this item as "Upper St. Johns River Update"? Thanks!

John Hendrickson

Moir,

Per your request, I have provided a draft outline for District participation in Thursday's Jesup meeting. Let me know if you have any questions.

Derek Busby – District Project – Cameron Flow way and Channel C update

Pam Way – District Project – lake Jesup P Technology RFI update and Bench Scale Efficiency Testing of P Technology update

John Hendrickson – District Project – Upper Basin Project update

John Hendrickson or Rolland Fulton – Lake Jesup WQ update (this presentation could be either a PPT presentation or an oral presentation)

Moira,

Our staff will be pulling together a brief wq presentation for the Jesup meeting. We have a meeting to discuss this tomorrow morning. I will email after our discussion to provide more information. Thanks.

Hi again!

For the Jesup meeting, would it be possible for you (the District) to provide the group with an update on water quality trends? Hope that's not asking for too much

Thanks,
Moira

Moira,

I'll check with John and Derek to see what other projects may be occurring in the mainstem and upper St. Johns.

Pam,

That's great; thanks!

I also wanted to check with you about whether there are any district (or other entity) projects happening in the mainstem and upper St. Johns area just south of the Harney-Monroe BMAP boundary, the purple and green areas in the map attached. As you know a big concern with the Harney-Monroe BMAP is the upstream loading, so it would be helpful to know if there are any ongoing or planned restoration activities in those areas.

Thank you and have great (long!) weekend,
Moira

Notifications Update

Moira,

No problem. I can talk about the Field Evaluation of In-Lake Treatments to Reduce Water Column Phosphorus in Lake Jesup project. I too think the stakeholders will be interested in the project objective, status and timeline for the work. Also, Derek and I will be attending the meeting together and he can discuss the status and timeline of the Cameron project and the Channel C project which should also interest the stakeholders. We shouldn't need much time to discuss either project. Thank you.

Hi Pam,

I was actually going to reach out to you and ask you if you would be able to present/talk about the Field Evaluation of In-Lake Treatments to Reduce Water Column Phosphorus in Lake Jesup project (which would be of particular interest to our stakeholders) and any other projects that the district might be working on in the basin. We will be putting together a draft agenda on Friday to send out next week, so I can add a time slot for the District to give us updates.

Thanks!
Moira

Good morning Moira,

Have you prepared a draft agenda for the Jesup BMAP meeting? Just curious if we (District) need to prepare anything for the meeting. Thank you and see you Thursday the 30th.
