Hi Moira,

Just a quick update on local updates for the two annual meetings next week. So far, I got a hold of Don Marcotte at Winter Park by phone and they want to provide an update at the Jesup meeting. Don has a schedule conflict with the meeting time, so he is sending Matt Noonan and/or Tim Egan to the meeting.

I have voicemail messages in with everyone else, so I'll keep you posted as I hear back. I left detailed messages, so hopefully they can get back to me with a specific response.

Tiffany

Subject: Potential Speakers for Jesup/LHM

Tiffany,

Jesup:

Longwood (Tom Smith)

Maitland (Alyssa Eide)

Orange County (Julie Bortles)(hydrological and nutrient source assessments for Lakes Martha and Burkett)

Winter Park (Don Marcotte—Matt Noonan and/or Tim Egan will attend)(CDS Units and Alum Injection)

Winter Springs (Lena Rivera via Leylah Saavedra)(Shoreline stabilization and planting – other projects do not count for credit)

LHM: Nothing new that could count for credit at first glance. Maybe an update from Seminole County (Kim Ornberg) on the Sweetwater project or on some of their other projects?
