

FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION

Central Florida Habitat Assessment Benchmark Sites

Mill Creek @ Bellamy Road

Division of Environmental Assessment and Restoration
Water Quality Standards Program

PROCEDURE

- Evaluate each site per SOP FT3100, "Stream and River Habitat Assessment", using forms FD9000-3, FD9000-4, and FD9000-5. It is recommended that you use the most current editions of the forms and the SOP.
- **Work independently.**
- Submit all completed forms to the FDEP Aquatic Ecology and Quality Assurance (AEQA) Section in Tallahassee.
- The range for a passing score is +/- 10 points from the predetermined consensus score. However, consideration will be given to scores outside this range if they were legitimately caused by different conditions at the time of sampling compared to conditions when the consensus score was decided (i.e., higher/lower water level, velocity).
- Analysts must pass 2 out of 3 Habitat Assessments every 5 years.
- Once scores have been reviewed, analysts will receive notice of passing or failing from the AEQA Section.
- Analysts should take photos to document stream conditions at the time of assessment. Photos may be submitted to AEQA after initial determination of passing/failing if an analyst believes his/her score for a given site is out of the +/- 10-point range due to justifiable reasons.

AREA HYDROGRAPH

The consensus score for this site was established on March 7-8, 2024, and was revisited on March 30, 2026. The above graph shows the gage height data for a nearby site during the original visit, and the red line on the graph represents the recommended gage height. If you conduct habitat assessment at this site at different water levels, be sure to document the conditions.

Mill Creek @ Bellamy Road

- **Region:** Central
- **County:** Alachua
- **Lat/Longs:**

Parking: 29.844763, -82.501684

0m: 29.8448, -82.5014

100m: 29.84545, -82.50074

Directions: From Interstate 75 N or S, take exit 404 for County Rd 236 toward High Springs/Lake Butler. In approximately 0.2 miles, turn right onto NW County Rd 236 (signs for Santa Fe/Lake Butler). In approximately 0.7 miles, turn right onto NW 173rd St. In 1.4 miles, turn left onto Old Bellamy Rd. In approximately 2.0 miles, destination will be on the left.

Mill Creek @ Bellamy Road

- **Accessing the site:** Park on the NE side of bridge. The 0 m mark is about 30 m upstream of bridge
