

FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION

Central Florida Habitat Assessment Benchmark Sites

Sweetwater Branch @ SE 16th Ave

Division of Environmental Assessment and Restoration
Water Quality Standards Program

PROCEDURE

- Evaluate each site per SOP FT3100, "Stream and River Habitat Assessment", using forms FD9000-3, FD9000-4, and FD9000-5. It is recommended that you use the most current editions of the forms and the SOP.
- **Work independently.**
- Submit all completed forms to the FDEP Aquatic Ecology and Quality Assurance (AEQA) Section in Tallahassee.
- The range for a passing score is +/- 10 points from the predetermined consensus score. However, consideration will be given to scores outside this range if they were legitimately caused by different conditions at the time of sampling compared to conditions when the consensus score was decided (i.e., higher/lower water level, velocity).
- Analysts must pass 2 out of 3 Habitat Assessments every 5 years.
- Once scores have been reviewed, analysts will receive notice of passing or failing from the AEQA Section.
- Analysts should take photos to document stream conditions at the time of assessment. Photos may be submitted to AEQA after initial determination of passing/failing if an analyst believes his/her score for a given site is out of the +/- 10-point range due to justifiable reasons.

AREA HYDROGRAPH

The consensus score for this site was established on October 27, 2021, and was revisited on November 19, 2025. The above graph shows the gage height data for a nearby site during the original visit. If you conduct a habitat assessment at this site at different water levels, be sure to document the conditions.

Sweetwater Branch @ SE 16th Ave

- **Region:** Central
- **County:** Alachua
- **Lat/Longs:** 29.629145, -82.321396
- **Directions:** From I-75, take exit 382 for FL-121/Williston Rd toward FL-331. Turn left on FL-121 N/SW Williston Rd. Continue straight onto FL-331 N/SW Williston RD. Turn right onto SE 16th Ave.

Sweetwater Branch @ SE 16th Ave

There should be plenty of parking available in the lot pictured below.

There is a crosswalk to enter the site shown in the picture above and a trail that accesses the stream.
