Subject: Toxic water

Hi,

I wanted to let you all know that the toxic water not only is effecting our health and our lifestyle that we pay huge taxes for in Martin County, and it effects our tourism, but it is also a factor in everyone's allergies which are through the roof for the last 3-5 years. I didn't even have allergies for the first 30 years that I lived here until the water became such a mess.

Please continue to think what your mission is to the people about protecting our health and lives and not what is best for the sugar industry.
