Subject: TOXIC ALGAE LIMITS

To Whom it may concern,

In response to the article re: Setting limits to save the Quality of our water: This is an emergency!! This needs to be addressed ASAP! Our waterways are being polluted, our Ocean and marine animals are dying. It's a shame that laws and limits need to be put in place in order for this to be done---OF COURSE LIMITS NEED TO BE SET!!!! The World needs to wake up and understand that once our water is polluted, that's it!! Our ocean needs to be protected by any means necessary! Our wildlife needs to be preserved! We are destroying our planet with toxins and construction! I am so very passionate about this! Please, FIGHT!

I will help support and spread the word as much as I can!!!

Sincerely,
Celeste Brown
