Subject: Toxic ALGAE

Ms. Sutton

I am writing in complete DIS-BELIEF that the public has been quietly asked to share comments and concerns about the on-going problem with ALL forms of algae in our fresh and salt water areas. It seems to me that our public servants, both elected and appointed should be there to do this for us. OF COURSE we are concerned about algae of ALL TYPES. OF COURSE we want limits established, research done and SOLUTIONS to these problems. Please work with your fellow politicians/ government co-workers and DO THE JOB!
