Subject: Water issues SWFL

Hello, I can a home on Sanibel that I have been hardly able to use since last year due to the Water Quality issues in this State. Truly, it is increadibly short sighted and flat our wrong for this States elected officials to destroy what is Floridas Legacy for our children, clean water, a natural environment with safe beaches and rivers that does not put residents in harms way. The wildlife is being desimated. The beaches are smelly and full of rotting fish. Enough is Enough! To allow this to continue is disastrous.

Please do the right thing.
