Subject: Water quality standards

Dear Kaitlyn:

My husband was born with hand and foot "anomalies", and our son too.

I long ago read a list of all the chemicals that are in breast milk.

Maybe 5 years ago, the Stuart news said Martin County women had the highest % of mercury in their blood than anywhere else in the U.S.

All those complaining about "onerous regulations" , and/or, who claim to be "pro-life" should visit nurseries and pediatric patients regularly.

Otherwise, stop claiming that we are a "...nation under God...".

Thank you

Helen R., and Anthony Frigo,

9650 S. Ocean dr.
