Subject: Water Quality limits

Dear Ms. Sutton:

I am a resident of 1021 Hillsboro Mile, Fl, Hillsboro Beach, Broward County. For the sake of our State and its residents I implore that you recommend the strictest limits on cyanotoxins in our State. I know that Florida has responded to several not for profits dedicated to preserving our health by saying it would consider the tighter limits as part of your review. Now's the time.

Sincerely,

Henry T Rubin, JD
