Subject: Water Quality Limits

I am writing to ask that you set strict limits to the allowable amount of toxic algae in Florida waters. More importantly, I am asking that you re-establish strict pollution control regulations to ensure that we prevent these blooms in the first place. Clean water controls have been chipped away for years and were finally gutted by the 2016 legislature. We need strong pollution controls if we are going to regain clean and healthy water for Floridians and the tourists who drive our economy.
