Subject: Water Quality

Hi,

Our beautiful river is just barley recovering. The fishing is terrible but finally turning around. My friends and family visit but DO NOT desire to go in the water! HOW can we live in such an amazing area..and have to keep away from the water..fishing and tourism and the treasure coast lifestyle people PAY FOR by taxation is being destroyed. PLEASE FIX IT..even my friends in SO. Florida GREATLY desire water go south to help the Bay fishery as well.

Thank you..i know you're fighting hard. Keep it up!
