Subject: Water Quality Standards

Dear Ms. Sutton,

It is of utmost importance to the residents and visitors of Florida that the water quality is held to the highest standards. Without clean, vibrant beaches, waterways and resulting wildlife and fauna, not too many people are going to continue to spend their money here. They'll be moving on.

So, we do so appreciate your work to support the greater health of this beautiful state. The review that is going on now, I understand, includes the potential tightening of standards for the amount of toxic algae allowed in our waterways. I hope that tighter standards do occur.

Thank you,
Stella Gray
