Subject: Water pollution

Hi , I am 82 & resident in Hobe sound near pecks lake. I have lived here for over 25. Years & can attest to poor quality of our water now , as compared to the past.

This past June , I had been kayaking near pecks lake 4 times in the week & flew to rye ny . 2 days later I was taken to the hospital with a fever of 105 & spent 5days there ; a massive infection in my right upper leg. I would think that the bad water was the cause ; but have no proof . I urge you all to consider plans to clean up our Florida waters ! Thank you for your consideration . Susan r sullivan
