

Florida Muddy Water Blues

A **FREE** DEP Technology Transfer Workshop for Erosion and Sediment Control BMPs

The *Florida Muddy Water Blues Workshop* is an indoor and outdoor technology transfer program which is offered by the Department of Environmental Protection in partnership with St. Petersburg College, SUCA, R.H. Moore & Associates, local cities and counties, and the erosion and sediment control industry within the area. The workshop is primarily designed to help planners, designers, developers, contractors, inspectors, and citizens interested in learning more about erosion and sediment control practices and products to help improve water quality during and after construction activities.

Brought to you by:

SPC St. Petersburg College
