ORDER REVISING VERIFIED LIST OF IMPAIRED WATERS

Pursuant to Section 403.067(4), Fla. Stat., and Rule 62-303, Florida Administrative Code (F.A.C.), the Department of Environmental Protection (Department) is revising the verified list of impaired waters for the Group 1 through 4 basins. These revisions will be submitted to the United States Environmental Protection Agency (EPA) as an addendum to the Department's 2006 submission, pursuant to Section 303(d) of the federal Clean Water Act, and shall serve to further amend the 1998 Section 303(d) statewide list of Florida waters (the "1998 List") maintained by EPA.

This order addresses the following revisions to previously adopted verified lists:

a) add the main stem of the Wekiva River (WBIDs¹ 2956 and 2956A), Wekiva Springs (WBID 2956C), and Rock Springs Run (WBID 2967) to the verified list for the Middle St. Johns River Basin as impaired for nutrients based on "other information" indicating an imbalance in flora or fauna pursuant to Rule 62-303.450(2), F.A.C.,

b) remove the nutrient listings for Starke Lake (WBID 3002D), Lake Primavista (WBID 3002E), Lake Lotta (WBID 3002G), and Prairie Lake (WBID 3002N) from the verified list for the Middle St. Johns River Basin because it has been determined that the data that were the basis for the original listing do not meet quality assurance/quality control requirements,

c) remove the nutrient listing for Island Lake Wetlands (WBID 2994D) because it has been determined that the waterbody was assessed as a lake when it is actually a wetland and some of the assessed data were actually collected from a borrow pit,

d) remove the Dissolved Oxygen listing for Reedy Creek Above Lake Russell (WBID 3170C) from the verified list for the Kissimmee River because the low dissolved oxygen levels have been determined to be a natural condition,

e) remove the Iron listing for C-24 (WBID 3197) from the verified list for the St. Lucie-Loxahatchee River basin because it has been determined that wrong parameter codes were used by the sampling agency, and once the codes were corrected, there were no exceedances of the criterion, and

f) remove all listings for Total Coliforms from the Group 1 through 4 Basins verified lists because the Total Coliform criterion was repealed and as such, TMDLs cannot be established.

Waters to be added to the verified list are set forth in Exhibit I, attached hereto and incorporated herein, and entitled, WATERS TO BE ADDED TO THE VERIFIED LIST OF IMPAIRED WATERS FOR THE MIDDLE ST. JOHNS RIVER BASIN. Waters within the Group 1 through 4 Basins that are being removed from the previously adopted verified list of impaired waters for each basin are set forth in Exhibit II, attached hereto and incorporated herein, and entitled, WATERS TO BE REMOVED FROM THE VERIFIED LIST. For those waters in Exhibit II that were previously listed on the 1998 303(d) list, the Department will request EPA to remove these water bodies/segments from the State's 303(d) List.

¹ WBID = **waterbody identification** number

Requests For Hearings

Persons whose substantial interests are affected by this order have a right to petition for an administrative hearing to contest this order pursuant to Sections 120.569 and 120.57, Fla. Stat. The Petition must contain the information set forth below and must be filed (received) in the Department's Office of General Counsel, 3900 Commonwealth Boulevard, MS# 35, Tallahassee, Florida 32399-3000, within 21 days of the date of receipt of this order. Failure to file a petition within 21 days of the date of receipt of this order constitutes a waiver of any right such person has to an administrative hearing pursuant to Sections 120.569 and 120.57, Fla. Stat.

Extensions of Time

The Department may, for good cause shown, grant a request for an extension of time for filing a petition. Requests for extension of time must be filed with the Department prior to the applicable deadline. Such requests for extensions of time shall contain a certificate that the moving party has consulted with all other parties, if any, concerning the extension and whether any other parties agree to the extension. A timely request for an extension of time shall toll the running of the time period for filing a petition until the request is acted upon.

Contesting The Listing Of A Water Segment

A person whose substantial interest has been affected by the Department's listing of a water segment or removal of a water segment in this Order, must file a petition as directed herein using OGC number listed for that particular water segment.

Contents of Petition for Hearing

The petition shall contain the following information: (a) the name, address, and telephone number of each petitioner; the Department's identification number (OGC

number) for the water segment and the county in which the subject matter or activity is located; (b) a statement of how and when each petitioner received notice of this order; (c) a statement of how each petitioner's substantial interests are affected by this order; (d) a statement of the material facts disputed by petitioner, if any; (e) a statement of facts which petitioner contends warrant reversal or modification of this order; (f) a statement of which rules or statutes petitioner contends require reversal or modification of this order; (g) a statement of the relief sought by petitioner, stating precisely the action petitioner wants the Department to take with respect to this order.

Mediation

In addition to petitioning for an administrative hearing, any person who has previously filed a petition for an administrative hearing may pursue mediation. If a written mediation agreement with all parties to the proceeding is filed with the Department within 10 days after the deadline for filing a petition for an administrative hearing, the time limitations imposed by sections 120.569 and 120.57, Fla. Stat., shall be tolled to allow mediation to proceed. The agreement must be received by the clerk in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000, before the deadline noted above. Pursuing mediation will not adversely affect the right to a hearing if mediation does not result in a settlement.

Agreement to Mediate

Mediation may only take place if the Department and all the parties to the proceeding agree that mediation is appropriate. A person may pursue mediation by reaching an agreement to mediate with all parties to the proceeding and by showing how the substantial interests of each mediating party are affected by this order. The agreement must be filed in (received by) the Office of General Counsel of the

Department at 3900 Commonwealth Boulevard, MS #35, Tallahassee, Florida 32399-3000, within 10 days after the deadline as set forth above for the filing of a petition.

Contents of Agreement to Mediate

The agreement to mediate must include the following:

- (a) The names, addresses, and telephone numbers of any persons who may attend the mediation;
- (b) The name, address, and telephone number of the mediator selected by the parties, or a provision for selecting a mediator within a specified time;
- (c) The agreed allocation of the costs and fees associated with the mediation;
- (d) The agreement of the parties on the confidentiality of discussions and documents introduced during mediation;
- (e) The date, time, and place of the first mediation session, or a deadline for holding the first session, if no mediator has yet been chosen;
- (f) The name of each party's representative who shall have authority to settle or recommend settlement; and
- (g) Either an explanation of how the substantial interests of each mediating party will be affected by the action or proposed action addressed in this notice of intent or a statement clearly identifying the petition for hearing that each party has already filed, and incorporating it by reference.
- (h) The signatures of all parties or their authorized representatives.

Judicial Review

This order is final agency action. A party who is adversely affected by this order has the right to seek judicial review under Section 120.68, Fla. Stat., by filing a notice of appeal under Rule 9.110, Florida Rules of Appellate Procedure, with the clerk of the Department in the Office of the General Counsel, Mail Station 35, 3900 Commonwealth

Boulevard, Tallahassee, Florida, 32399-3000, and by filing a copy of the notice of appeal accompanied by the applicable filing fees with the appropriate district court of appeal. The notice of appeal must be filed within thirty days after this order is filed with the clerk of the Department.

DONE AND ORDERED this 3rd day of January, 2007, in Tallahassee, Florida.

EXHIBIT I. WATERS TO BE ADDED TO THE VERIFIED LIST FOR THE MIDDLE ST. JOHNS RIVER BASIN

OGC Case Number	Basin Group Name	WBID	Waterbody Segment Name	Waterbody Type	Waterbody Class	Parameters Assessed Using the IWR	Concentrations Causing Impairment ¹	Priority for TMDL Development ²	Projected Year for TMDL Development ²	Comments
06-2580	Middle St. Johns	2956	Wekiva River	Stream	3F	Nutrients	Nitrate = 0.58 mg/L TP = 0.107 mg/L	High	2007	Listed as impaired for nutrients based on "other information" indicating an imbalance in flora or fauna, pursuant to Rule 62-303.450(2), F.A.C., including higher percent coverage of stream bottom by periphyton compared to reference streams, abundant existence of toxic blue-green algae such as Lyngbya, and depression of some community metabolic rates compared to reference streams. The causative pollutants, based on information provided by the SJRWMD, are nitrate and phosphorus.
06-2581	Middle St. Johns	2956A	Wekiva River	Stream	3F	Nutrients	Nitrate = 0.34 mg/L TP = 0.115 mg/L	High	2007	Listed as impaired for nutrients based on "other information" indicating an imbalance in flora or fauna, pursuant to Rule 62-303.450(2), F.A.C., including higher percent coverage of stream bottom by periphyton compared to reference streams, abundant existence of toxic blue-green algae such as Lyngbya, and depression of some community metabolic rates compared to reference streams. The causative pollutants, based on information provided by the SJRWMD, are nitrate and phosphorus.
06-2582	Middle St. Johns	2956C	Wekiva Springs	Stream	3F	Nutrients	Nitrate = 1.25 mg/L TP = 0.123 mg/L	High	2007	Listed as impaired for nutrients based on "other information" indicating an imbalance in flora or fauna, pursuant to Rule 62-303.450(2), F.A.C., including higher percent coverage of stream bottom by periphyton compared to reference streams, abundant existence of toxic blue-green algae such as Lyngbya, and depression of some community metabolic rates compared to reference streams. The causative pollutants, based on information provided by the SJRWMD, are nitrate and phosphorus.
06-2583	Middle St. Johns	2967	Rock Springs Run	Stream	3F	Nutrients	Nitrate = 0.87 mg/L TP = 0.09 mg/L	High	2007	Listed as impaired for nutrients based on "other information" indicating an imbalance in flora or fauna, pursuant to Rule 62-303.450(2), F.A.C., including higher percent coverage of stream bottom by periphyton compared to reference streams, abundant existence of toxic blue-green algae such as Lyngbya, and depression of some community metabolic rates compared to reference streams. The causative pollutants, based on information provided by the SJRWMD, are nitrate and phosphorus.

¹ Concentration causing the impairment is the long-term median value of a given pollutant concentration in the period from January 1 of 2000 through June 30th of 2006.

² Priority established by Wekiva Study Area legislation.

	06-2552	3073	CRABGRASS CREEK	COLIFORMS	TOTAL COLIFORMS	The Total Coliform criterion was repealed as part of the 2006 Triennial Review.
Sarasota Bay , Myakka River, Peace River	06-2553	1877A	MYAKKA RIVER (UPPER)		TOTAL COLIFORMS	The Total Coliform criterion was repealed as part of the 2006 Triennial Review.
	06-2554	1958	MUD LAKE SLOUGH	COLIFORMS	TOTAL COLIFORMS	The Total Coliform criterion was repealed as part of the 2006 Triennial Review.
	06-2555	1896	BOWLEES CREEK		TOTAL COLIFORMS	The Total Coliform criterion was repealed as part of the 2006 Triennial Review.
	06-2556	1937	PHILIPPI CREEK	COLIFORMS	TOTAL COLIFORMS	The Total Coliform criterion was repealed as part of the 2006 Triennial Review.
Lake Worth Lagoon						
No WBIDs within this basin proposed for removal						
Caloosahatchee						
	06-2557	3240I	MANUEL BRANCH		TOTAL COLIFORMS	The Total Coliform criterion was repealed as part of the 2006 Triennial Review.
	06-2558	3237C	LAKE HICPOCHEE		TOTAL COLIFORMS	The Total Coliform criterion was repealed as part of the 2006 Triennial Review.
Group 4						
Fisheating Creek						
No WBIDs within this basin proposed for removal						
Kissimmee River Basin						
	06-2559	1761D	MORGAN HOLE CREEK		TOTAL COLIFORMS	The Total Coliform criterion was repealed as part of the 2006 Triennial Review.
	06-2560	3170C	REEDY CREEK ABOVE LAKE RUSSELL	Dissolved Oxygen	Dissolved Oxygen	The low dissolved oxygen levels have been determined to be natural.
Nassau River Basin						
	06-2561	2156	UNNAMED BRANCH	COLIFORMS	TOTAL COLIFORMS	The Total Coliform criterion was repealed as part of the 2006 Triennial Review.
	06-2562	2153	ALLIGATOR CREEK		TOTAL COLIFORMS	The Total Coliform criterion was repealed as part of the 2006 Triennial Review.
	06-2563	2157	LITTLE MILL CREEK	COLIFORMS	TOTAL COLIFORMS	The Total Coliform criterion was repealed as part of the 2006 Triennial Review.
Pensacola Bay, Blackwater River, Yellow River						
	06-2564	176	POND CREEK		TOTAL COLIFORMS	The Total Coliform criterion was repealed as part of the 2006 Triennial Review.
	06-2565	676	CARPENTER CREEK	COLIFORMS	TOTAL COLIFORMS	The Total Coliform criterion was repealed as part of the 2006 Triennial Review.
	06-2566	846	BAYOU CHICO	COLIFORMS	TOTAL COLIFORMS	The Total Coliform criterion was repealed as part of the 2006 Triennial Review.
	06-2567	548H	EAST BAY		TOTAL COLIFORMS	The Total Coliform criterion was repealed as part of the 2006 Triennial Review.
	06-2568	846A	JONES CREEK	COLIFORMS	TOTAL COLIFORMS	The Total Coliform criterion was repealed as part of the 2006 Triennial Review.

Exhibit II. Waters to be Removed from the Verified List

Basin Name	OGC Case Number	WBID	Waterbody Segment Name	Parameters Included on the 1988 303(d) List	Parameters Assessed Using the Impaired Waters Rule (IWR)	Comments/Explanation for Removal From Verified List
SouthEast Coast Basin	06-2569	846B	JACKSON CREEK	COLIFORMS	TOTAL COLIFORMS	The Total Coliform criterion was repealed as part of the 2006 Triennial Review.
	06-2570	160B	SHOAL RIVER		TOTAL COLIFORMS	The Total Coliform criterion was repealed as part of the 2006 Triennial Review.
	06-2571	3276A	NORTH FORK NEW RIVER		TOTAL COLIFORMS	The Total Coliform criterion was repealed as part of the 2006 Triennial Review.
	06-2572	3285	C-8/BISCAYNE CANAL	COLIFORMS	TOTAL COLIFORMS	The Total Coliform criterion was repealed as part of the 2006 Triennial Review.
	06-2573	3287	C-7/LITTLE RIVER	COLIFORMS	TOTAL COLIFORMS	The Total Coliform criterion was repealed as part of the 2006 Triennial Review.
	06-2574	3288	C-6/MIAMI RIVER	COLIFORMS	TOTAL COLIFORMS	The Total Coliform criterion was repealed as part of the 2006 Triennial Review.
	06-2575	3292	CORAL GABLES CANAL		TOTAL COLIFORMS	The Total Coliform criterion was repealed as part of the 2006 Triennial Review.
	06-2576	3226M2	UPPER ARCH CREEK		TOTAL COLIFORMS	The Total Coliform criterion was repealed as part of the 2006 Triennial Review.
	06-2577	3288A	WAGNER CREEK	COLIFORMS	TOTAL COLIFORMS	The Total Coliform criterion was repealed as part of the 2006 Triennial Review.
Withlacoochee	06-2579	3288B	C-6/LOWER MIAMI RIVER		TOTAL COLIFORMS	The Total Coliform criterion was repealed as part of the 2006 Triennial Review.
No WBIDs within this basin proposed for removal
